

MC-ANSUR

The Warfighter Payoff

- **Valid anthropometric criteria** for requirements documents and cost savings, efficient design, sizing, and tariffing of Infantry Clothing & Equipment (ICE) and hardware
- **Reduced risk** of human factors failures in fast track acquisitions and multi-component ensembles
- **Improved operational readiness** by integrating Active Duty and Reserve requirements throughout the materiel life cycle
- **New 3D capabilities** to integrate shape data in the design of body armor and close fitting protective equipment
